extraordinary future.

CAMPAIGN FOR THE NEW ELMHURST MEMORIAL HOSPITAL

## The Elmhurst Memorial Hospital Foundation is the fundraising and gift-receiving arm of Elmhurst Memorial Healthcare.

The Foundation is a 501(c)(3) organization that was established in 1980 to encourage and receive contributions that enhance the delivery of high-quality healthcare services to those who live and work in the communities served by Elmhurst Memorial Healthcare.

Today, former patients, employees, physicians, community residents, business leaders and volunteers, as well as Guild members and other friends of the Hospital, continue to have a positive influence on the quality of healthcare services in the communities through their generous support.

### The Exceptional Past, Extraordinary Future Campaign for the New Elmhurst Memorial Hospital

Nearly 100 years ago, the people of Elmhurst did something exceptional — they built the first acute-care hospital in DuPage County. Now it's time to plan for the future and do something extraordinary. In order to meet the needs of our communities for generations to come, we are building a new, state-of-the-art hospital.

- To raise the funds required for the new facility, we are embarking on a historic philanthropic initiative: the Exceptional Past, Extraordinary Future capital campaign.
- The goal of the campaign is to raise 27.5 million dollars by fall of 2011. There are many ways to contribute to the campaign, and naming recognition opportunities are available.

### The New Elmhurst Memorial Hospital

The new Elmhurst Memorial Hospital will be the focal point of our new 50-acre campus at the corner of York and Roosevelt roads, next to the Center for Health. The integrated design of the new Hospital will make it easy for patients to go from physician visits to diagnostic testing or to inpatient or outpatient care.

### HIGHLIGHTS INCLUDE:

- 259 rooms, all private
- Indoor healing gardens
- Recycled and regionally available construction materials used throughout the building
- A heart hospital within the Hospital
- Women's pavilion and cancer center
- Technologically advanced surgical suites
- Modernized emergency department with private treatment rooms
- Extensive landscaping, irrigated with rainwater captured on campus
- Two-story ecumenical chapel
